Mumbai, India | +919326397622 | urusashk9@gmail.com | [LinkedIn](#) | [GitHub](#) | [urusashk9.github.io](#)

OBJECTIVE

An ambitious Computer Engineering student with a strong passion for technology and innovation. Proficient in web and app development, data structures and algorithms, problem-solving, and team collaboration. Enthusiastic about building efficient, user-friendly solutions and applying analytical thinking to solve complex problems. Eager to contribute to meaningful projects while continuously learning and growing in the field of computer science.

EDUCATION

B.Tech in Computer Engineering, Vidyalkar Institute of Technology 2025-2028
CGPA - 10/10 (Sem 3), 9.9/10 (Sem 4)

Diploma in Computer Engineering, M.H Saboo Siddik Polytechnic 2022-2025
Percentage: 93.49%

SKILLS

Web Technologies	HTML, CSS, React, Next.js, Express.js, Tailwind CSS
Mobile Development	Flutter, Java, React Native
Programming Languages	C, C++, Java, Python, PHP, JavaScript, SQL
Core CS	Data Structures & Algorithms, Object-Oriented Programming (OOP), Time & Space Complexity
Frameworks	Bootstrap, OpenCV, Tinkter, NumPy, Matplotlib
Databases	MongoDB, Firebase, Supabase, MySQL
Platforms Tools	WordPress, WooCommerce, Git, GitHub, Postman, PowerBI, AWS
Soft Skills	Communication, Leadership, Problem-Solving, Teamwork

EXPERIENCE

Website Designer Intern June 2025 - Sept 2025
SSC India

- I Designed and deployed responsive websites using HTML, CSS, JavaScript, and WordPress, improving client site performance by 30%
- Optimized UI/UX with WordPress and enhanced user engagement and reduced bounce rates by 20%
- Learnt more through the experience with client interactions.

App Development Intern July 2025 - August 2025
Hertzsoft Technologies India

- Built cross-platform mobile apps using Flutter, reducing development time by 25%
- Enhanced app performance by applying state management and optimizing API calls.

Website Developer Intern June 2023 - Sept 2023
VisualLabs India

- Designed and developed the official Visual Labs website using WordPress with custom themes and plugins.
- Collaborated in a team environment to plan, design, and update website content.
- Gathered and organized resources for online courses, ensuring smooth integration into the platform.

PROJECTS

Restaurant Management System Developed a console-based Restaurant Management System in C with separate Admin and Customer modules. Implemented menu management, order placement, bill generation, and customer record management using structures, arrays, and functions. Designed an efficient menu-driven interface to streamline restaurant operations and improve order processing.

Face Recognition Based Door Lock Built a smart home security system with liveness detection to prevent spoofing attacks. Integrated facial recognition (OpenCV + Firebase) with a Flutter mobile app for admin control. Implemented access logs and error alerts, tracking last two accesses and failed attempts.

NexLearn AI Created an AI-powered learning platform that teaches students and tracks their learning progress with AI-based MCQs to measure students' performance using NLP and ML models. Achieved *1st Runner-Up at Aixplain Hackathon 2025*, recognized for impact in education.

Becho an AI-powered sustainability platform that uses computer vision for waste detection, machine learning for recycler matching and eco credit score prediction, and LLM-based models to generate reuse recommendations, assitant through intelligent waste management.

EXTRA-CURRICULAR ACTIVITIES

- 2nd Runner Up - TCS Hackathon 2026
- 1st Runner Up - Hackathon Aixplain 2025 (Built AI learning Platform for students)
- 1st Runner Up - Inter College Hackathon, M.H Saboo Siddik Polytechnic.
- Winner - State-level Paper Presentation.
- 2nd runner-up - State-level poster competition
- 2nd runner-up - State-level debate competition
